

INNCHARGE
EPS Charging Solution
Lets Power up the Future

smartinn **EV**

Power Packed Home Charging. Simply Smarter

Inncharge EP3.5S

3.5kW

Portable Charger

smartinn.ev

POWERING THE FUTURE OF EV CHARGERS — TODAY

CHARGE WITH CONFIDENCE, POWERED BY INTELLIGENCE

Universal Compatibility

Works seamlessly with all Type 2 electric vehicles

Multi-Layer Safety

Built with full safety features for secure, worry-free charging.

Plug & Play

Ready to use—just plug into any outlet for instant charging anywhere.

Smart Temperature Control

Operates reliably from -20°C to $+55^{\circ}\text{C}$ for consistent performance in any climate.

CORE FEATURES

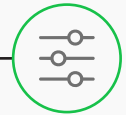

CCS Technology Fast EV Charging Solutions

smartinn **EV**

Portable Design

Lightweight and compact
— your charger goes
wherever you go

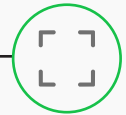

Adjustable Current Settings

Control charging speed
safely for any power
source.

Durable Construction

Built with premium,
weather-resistant materials
for lasting performance.

LED Status Indicators

Clear lights show
charging progress and
system status instantly.

Efficient Power Delivery

Optimized power transfer
for faster, energy-efficient
charging.

Speed Current Switching

Optimize charging speed
based on your available
power supply.

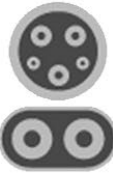

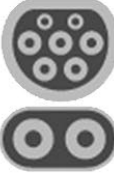

TECHNICAL KEY FEATURES

PARAMETER	SPECIFICATION
Model	INNCHARGE EP35S
Product Type	Portable EV Charger
Power Output	3.5 kW (16A)
Input Voltage	220-240V AC
Frequency	50/60 Hz
Charging Current	8A / 10A / 13A / 16A / 32A (Adjustable)
Connector Type	Type 2 (IEC 62196-2)
Operating Temperature	-25°C to +50°C
Storage Temperature	-30°C to +60°C
Protection Rating	IP66 (Dust and Water Resistant)
Compatibility	All Type 2 Electric Vehicles
Certifications	CE, RoHS Compliant
Weight	Lightweight for Easy Transport
Dimensions	200×90×42 mm

ONE CHARGER, EVERY VEHICLE
